How To Deliver Programmes on the Ground

Nancy Johnston

Technology & Communications Development Manager

 Age Concern England

5th July 2006

Key Components in Delivering Programmes on the Ground

1. Discover the Need

2. Discover Existing Resources

3. Mobilise and Utilise Existing Resources

4. Create the Right Environment

5. Involve Older People

AGE
Concern

Mobile Internet Taster Sessions - MITS

Delivery by Local Age Concerns:

- Residential & nursing homes

- Hardware / software retained at the end of the project

Explorer Buses

Excluded groups: Care Homes, BME Elders, Rural Towns and Villages

Cannock nursing homes:
- Average age – 80 years old
- Dementia, learning difficulties & physical disabilities
- Reminiscence used to develop self-esteem and confidence

4 Computer Explorer Buses continue to provide learning opportunities of older people in remote and hard to reach areas

Mini Explorer
